EDUCATION :

Noida institute of Engineering and Tecnology , Greater Noida
Bachelor of Technology   **08/2024**

PROJECTS :

MediCare:Hospital Management Site for Hospital.

➢ Developed a website for hospitals to manage and engage with patients.
➢ Developed smooth routing using *React Routing*.
➢ Used *JWT* for patient authentication.
➢ Used server-side database *PostgreSQL* to store basic details of patients.

Bits and Biets: A Short news web Application.

➢ Developing a one-stop news application using the MERN stack is a versatile and impactful project idea.
➢ Developed a dynamic web platform for concise news updates using mern Stack , catering to users seeking quick and reliable information.
➢ Implemented a user-friendly interface for seamless navigation and efficient content consumption.
➢ Utilized React for frontend interactivity, *Node* and *Express* for backend functionality, and *MongoDB* for data storage, ensuring scalability and responsiveness.

Two Ways: A Chat Application.

➢ Developed Real-time messaging *Websocket* for instant communication.
➢ Used *JavaFX GU*I for Responsive user interface for seamless interaction.

SKILLS :

Frontend Devlopment	BackEnd Devlopment	Tools	Language
HTML5,CSS,SCSS	Node.JS, Express,MYSQL	VS code	Python,Java
JavaScript,React.Js,Bootstrap	MongoDB,PostgreSQL	Git	

ACHIEVEMENT :

➢ I published my research paper on 'Deduplication of encrypted data on the cloud' in EmergIN 2023.
➢ Under 100 rank in Hackathon conducted by Tech-mahindra in January 2023.

CERTIFICATE:

Hosting a Static Website (HTML/CSS/Javascript) in AWS S3   **Developing Cloud Apps with Node.js and React**

Introduction to Web Development with HTML, CSS, JavaScript   **Object Oriented Programming in Java**
